

# Aayush Soni

FULL-STACK DEVELOPER | PRODUCT ENGG

+91 9783614197 · aayushsoni4116@gmail.com · @LinkedIn · @Github · @Leetcode

Kota, Rajasthan

## SUMMARY

I'm Aayush Soni, a full-stack developer with a strong grasp of modern tech stacks and hands-on experience in .NET, Django, Angular, AWS, Azure DevOps, Docker, and databases like PostgreSQL and SQL Server. I'm a "jack of all techs"—quick to adapt, curious by nature, and confident in problem-solving with a solid DSA foundation (Python & Java via LeetCode). I thrive in teams, communicate well, and enjoy building scalable, real-world applications.

## KEY COMPETENCIES

- ASP.Net Backend
- Docker and CI/CD
- Excellent Communication
- Django Backend
- AWS and Azure Devops
- DSA Intermediate
- Angular Typescript Frontend
- Git & Github
- SQL Server and PostgresDB

## PROFESSIONAL EXPERIENCE

### Mechlin Technologies

Oct 2024 - Present

#### Software developer

Full time

- Led **GhostQA backend** team, improved performance by 90%, added **Web Sockets & Webhooks**.
- Supported **Docker & IIS deployment** on tenants, took care of 100% DB-related issues.
- Built **multi-tenant features** along with Google/Microsoft SSO, RBAC, SMTP, PWA, and CRM with documentation.
- Managed **Azure DevOps (CI/CD)**, built pipelines, automated and manual, with proper test runs (**Curia Systems**).
- **Direct contact with the Client**, great communication, and handled the client's requirements based on the project.
- Provided **estimations for client leads**, as a full-stack prospect, and contributed to lead conversions.
- Led a client project with **Next.js and Node.js** tech stack, handled everything from development to deployment.
- Core (and first) developer on the **Tiger Team**, handling critical issues no one else could resolve on other projects.

### Level 7 Infosec

Aug 2024 - Sept 2024

#### Freelance Developer

Part time

- Built frontend for **Django-based VAPT SaaS platform** using modern UI tools
- Contributed backend features in Django, collaborating on secure feature modules

### Brudite pvt ltd

May 2024 - July 2024

#### Software developer intern

Full time

- Contributed to a full-stack internal project (**React, Django, AWS**) for their company product.
- Gained hands-on experience with Terraform, Docker, CI/CD, GitHub, and LinkedIn SSO

## PROJECTS

### TravelWise

Mar 2025 - May 2025

- Built using **Angular (frontend), .NET (backend), and SQL Server** with complete feature coverage
- Integrated **Stripe payments**, user inquiries, and agency responses in a marketplace model
- Setup **CI/CD pipelines via GitHub Actions deployed with Docker**, as well as deployment on Railway & Netlify
- Designed to help small agencies list & sell travel packages directly to customers

### Other Projects

- **Scheduler (MERN)**: Class schedule viewer for students; real-time batch-wise view, DB-updated only
- **PG Life (PHP/MySQL)**: Room rental app with dual login for PG owners and students; full-stack demo project
- **.NET Projects**: Built CRM, employee manager, and e-commerce apps using MVC with RBAC and admin views
- WIP – **TicketTree (React/Django/Polygon)**: Blockchain-based ticketing app to prevent reselling & scalping

## EDUCATION & CERTIFICATIONS

**Bachelor of Computer Applications** CGPA - 8.8/10  
Poornima University

**DSA With Python**  
NPTEL

**Cloud Computing**  
NPTEL

**Web Development**  
Internshala

## EXTRACURRICULAR ACTIVITIES

**Google Developer Student Club** 2023 - 2024  
Core Developer Member

## LANGUAGES

- English - Fluent
- Hindi - Native
- Marwari - Native
- Japanese - Naive
